AN ACT *relating to:* removing certain information contained in the
Consolidated Court Automation Programs.

2

Internet
site

Analysis by the Legislative Reference Bureau

Under current law, the director of state courts established a consolidated electronic system. This system, known as the Consolidated Court Automation Programs (CCAP), contains information about civil and criminal cases filed in the circuit courts in this state, including information about the parties and their attorneys; documents filed; and deadlines, decisions, and outcomes of cases.

The information on CCAP is available for free on an Internet site. CCAP allows a user to search for all civil and criminal cases in which a person or entity, who is the subject of the search, has been a party.

Under this bill, the director of state courts must remove from ~~CCAP~~ all information regarding a civil case if all money judgments entered against a party in the case are satisfied in full, and eight years have passed since the date the judgment was satisfied in full.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
